Thank you Mike,

Before I remove the attachment from the publicly available documents in SEMS, please confirm that the DRAFT Community Involvement Plan 2011 is indeed the correct document.

Subject: Priority web request. Donn Walters is requesting removal of old San Jacinto CIP

Donn asked we remove the CIP from 2010. It has some bad information and citizens were inquiring about it at the last community meeting. A disclaimer will be posted indicating the new CIP is being revised and will be posted (soon?). Based on related discussions in other meeting earlier this week, this seems a prudent action. Donn indicates he and contractor are working to revise the new CIP as quickly as possible.
